A PROPER QUESTION AND A RED HOT SHOT

The following gem is translated from Num-er 90 of the "Bulletin International da Mouve-nent Syndicaliste," date of May 30, 1909;

ment Syndraliste," date of May 30, 1909;
"A Question to the Berlin 'Vorwaerta.'—
Formerly, in the period of the 'llickal attempts', of Vaillant, Emile Henry, Caserio, etc., the organ of the German Social Democracy, 'Vorwaerts,' regularly joined in with hourgeois papers by snying that these explosions of revolutionary heat were the work of 'police spiles' and of 'fools.' Now, again today, to the joy of the capitalist class; the 'Vorwaerts' repeats the performance, by a criticism harsh and mijust, of the postal workers' strike and, the general strike of solidarity in Paris.
"To the great foot of the capitalist wages the

strike of solidarity in Paris.

"To the great joy of the capitalist press, the Paris correspondent of Vorwaerts, first of all, denounces the syndicate agitation as a sort of anarchism—incoherent and almiess; then he expresses regret that the Socialist Party of France has not mixed more profoundly in the modee! The party, according to him, kept itself in the background, comining itself to parliamentary interventions, to an appeal to the Administrative Committee and to a tardy meeting.

Administrative Committee and to a tardy meeting.

"Janres (editor of L'Humantte' and great parliamentary leader of the French Socialist Party), on behalf of the party, has repided and given the only possible response: But what more could the party have done with regard to a strike which burst out suddenly, even before the end of the parliamentary debate, and which in three or four days reached its critical stage? What more could it have done then, when the postal workers were holding daily meetings from which they excluded all political intervention? And should, we incur, on the part of the struggling workers, the reproach of having compromised their movement by interfering with it? All the ald we could give, we have given whole heartedly, in purliament and in the press, by assisting the workers in their struggle, to spread the truth about it, to mold oddinon, and to help sustain their courage.—

(L'Humanite, May 24.)

"That was not the response desired by the

the camp and the odors arising from them are just lovely. The board is fair. The poli tax is \$44.00; hospital fee, \$1.00. This outfit secures most of their men from the Spokane slave markets. There are some good fellows at the camp, but they need wising 10.

Seattle, Wash., June 11, 1909.

I received your letters O. K., had a hard time to get the registered one. If it had not been for Whitehead of the J. W. W. I consider have got it. There is no work in the woods here, most of the camps are shut down and wages are something fierce. There are a lot of fide men here, and they are nearly all broke. I was out to the fulr grounds last night. I don't think much of it, just a big graft. There are a couple of Jap battleships in the harbor and they are more of a sight than the harbor

Leaving the two or three editors to settle these questions among themselves, let us ask a question of Worwaerts: If, according to your view, the Social Democratic Party should assume the role of tutor to the lahor unions, why do not you in Germany do the same in order to the same area.

The Industrial Worker is published by workingmen. We have no capital. Subscriptions and orders must always be prepaid.

Entered as second-class matter April 8, 1909, at the postoffice at Spo kane, Wash., under the Act of March 3, 1879.

"Vote, vote, vote"-to be counted out, out, out,

What have you done this past week to get the working people together to t the employers?

Poverty often deprives a n an of all spirit and virtue; it is hard for an pty bag to stand upright.—Franklin.

Learn what the I. W. W. really is. Don't be prejudiced. Prejudice is the child of ignorance, and Voltaire ways: "Prejudice is the reason of fools."

This is the day of the horseless carriage, the jobless worker, the sonliess employer and the spinoless slave. Join the I. W. W. and fight it out by direct action sgainst the employing class.

Whatever the bosses oppose is for the interest of the working class. The employers oppose the i. W. W. They favor the American Federation of Labor "as iong as it is law-abiding" Why:

It is the "proud boast" of the Order of Railway Conductors that it has er violated an agreement with a railroad company. Neither did Benedict fold violate his agreement with the British.

Separated Union No. 12,222 of the American Fakeration of Labor (Taft's Union—and Mr. Hughes' Union) has been doing some excavating at the corner of Browne atreet and Pacific avenue. The boys tried to get the white horse teamsters union No. 202 to pull off with them. Nothing doing! The horses, at least, should "strike at the ballot box."

According to a Washington dispatch, the supply of labor in the Isthmian Canal Zone is greater than the demand. The idle men show little disposition to work for the established rate of 10 cents an hour. This is a government job too. Too bad they don't take the Spokane Review down there: Grandma Durham would soon show them how to start a chain gang:

The "Comrades" who edit the "Labor World" have several columns of The "Comrades" who; edit the "Labor World" have several columns of their valuable paper filled with court notices. This shows a very proper respect for the laws of the land, and proves the editors are not anarchists. Judge Erickson of Flathead county has issued an injunction against the wicked I. W. W. men on strike. We suggest that the "Comrades" print this also—or else some of the workers may get the idea that the "Comrades" are lawless!

Which do the masters fear the most—the direct action of the workers the cowardly superstition that reverences the masters laws? The worker nothing to gain from any laws of his master. Get up and do something now! Get your fellow workers organized and k up to the pork-chops while you still have teeth left to eat them. You be a long time dead. Get the goods first and then the law will follow. It's the employers plan: rob and then make robbery legal. The bosa has bed you; take back the stolen goods?

Rev. "Comrade" Gunj:owder Buil—a Church of England priest—and a Christisn socialist, is the man who wants the I. W. W. boys shot down in the streets in cold blood, if they get too uneasy or hungry. Buil runs a lodging house. Not long since a man with smallplox stayed there for days, and the place was not even quarantined. This joint, the "Lousawa," or Ondawa Inn, has been ornamented by a most ragged, dirty and "disreputable" American flag. If the flag was like the rest of the place it was lousy. On June 14 they put up a new flag. This killed all the crumbs!

Three hundred men were hired in one day by Fariey, the professional strike breaker, to scab on the street car strikers in Philadelphia. The New York World says: "The little men in the line came out again disconsolate. But the big, husky fellows, with red faces and rough necks, and a fighting glint in their eyes, didn't reappear on the street again." Fariey is called "King of the Strike Breakers." Which is the biggest scale: the Farieyite, or the man with an A. F. of L. card in his pocket who stays at work when other craft unions are striking. Spoksne Labor World, please answer.

The world is rines by physical force. Society's foundations are o-co-no-mi-ic, or bread-and-butter, that is, industrial foundations. Industrial jower supports utilitary, legal, moral, religious and "political" power. Organized physical force, to be successful, must include organized industrial force. In the struggle lietween the employing class and the working class no moral rules are used by the employers. Why should we use any moral rules? In the fluid death grip between the two classes; it is simply a test of organization and therefore the survival of the fittest. It is better to struggle than to starve.

A circular his been issued by three men at a place called Bingham Canyon, Utah. This was addressed to the industrial mions of the I. W. W., and asks that delegates be sent from the I. W. W. to the convention of the Western Federation of Miners in July, "in order to have an understanding as to political action," jetc., etc. The position of the I. W. W. is entirely clear and is stated in our preamble. We have suffered in the past from the attempts of blekering politicalns to make a stamping ground of business meetings of our unions. A man's religion or politics are his own concern, but we do not favor political or religious squaibles and divisions in the union. These men in Utah claim to represent a local union of the I. W. W.—"No. 99. The General Secretary-Trassurer has to record of any union in Bingham Canyon since 1906. As for the convention of the W. F. of M., we would like to see them reinstated in the I. W. W. as the National Industrial Union of the metal mining industry, but political squabbles, and religious bigotry simply divide the workers. This will serve as notice to all industrial unions of the I. W. W. at Bingham Canyon. The circular enjanates from private persons, probably, and for personal reasons.

Although the employe, a to not respect the laws they have made themselves, some people have the nerve to tell us they would respect the laws if this or that political party made the laws. Here is a sample of the law-abiding employing class civilized plans of action. This is from an employers paper, the San Francisco Chronicle, and is relative to the strike of the mill workers at McCloud, California:

District Attorney Lustrell declared today that the men imported by the company to act as guards were not deputy sheriffs nor had they been authorized to carry firearms. It developed that Sheriff Howard had supplied President Queal with several agore of blank warrants for the appointment of deputy sheriffs and the company's bookkeeper had filled them out with the namea of the men hired from the agency in San Francisco. The warrants were signed by Howard and were then sent to Yreka to be recorded and filed at the County Clerk's office. Luttrell said that he drew the attention of the county officials to the fact that the law prohibited the appointment of any person to the post of deputy sheriff who was not an elector and therefore a resident of the county. Howard was therefore no lifted to inform the men that they had no authority Howard was therefore no lifed to inform the men that they had no authority as peace officers and were not such in any sense of the word. They have been aupplied with arms by the company and are acting as watchmen on the property of the corporation, but they have no police authority further than possessed by any citizen.

Roach, the general organizer of the American Federation of Labor, has been in Spokane after attending a gathering at Missonia, Montana, June—. This assembly was for the purpose of putting the "internations!" scab union under the "protection" of the A. F. of L. Roach held several meetings of separated unions in Spokane and told his hearers that the L. W. W. is the enemy of the working people and that the separations are the "real things" to help the workers. His remarks on the building industry were instructive?" "It is all right for the brick-layers to atay at work while the carpenters are on striking; all right for the hod-carriers to work when the plasterers are on striking; all right for the hod-carriers to work when the plasterers are on striking; all right to belong to the same union." The Spokane carpenters needed no talk of this kind, because most of the members of the separated earpenters upion would get up out of bed to work where some other working people were out on strike. As for the rank and file of separated union No. 12,222 (hey have often shown a good idea of sticking with the other working people were the separation would do. From all accounts the saik of Separator Roach did not go very well with the working people is the A. F. of L.

tana scabs in the "international." He found that there are pleuty of men in the A. F. of L. in Spokane who want to see the working people united, and who would go to hell before they would scab, if they knew h. De the em-ployers pay Reach to lie about the i. W. W. and separate the workers?

JUDAS ISCARIOT UP TO DATE

JUDAS ISCARIOT UP TO DATE

The trade unlons aid the employing class to mislead the workers into the belief that the working class have interests in common with their employers. Many of the leaders of the American Federation of Labor have long since lost all pride and all shame. They are open and notorlous scabs, and glory in scabbery and its twin-sister "ratriotism". Grant Hamilton is a professional scab organizer. He went to Goldfield, Nevada, when there was only the one Union in the camp—the Western Federation and the I. W. W. Hamilton was imported into Goldfield by the mine-owners and had quarters with the mine-owners' association. Hamilton openly bragged and wrote long articles glory-ing in the fact that in less than two weeks, he had broken the workers up into fourteen separated unlons. Wages also dropped about 40 per cent in the meantime. The average member of the American Federation of Labor knows little about his union. The A. F. of L. might be "affiliated" with the seven year itch or the smalipox for all the average member would know. Labor union! Hum! Taft is a member of the Sleam Shovelers' Union. There would be as much sense and consistincy in a shovel sitil pretending to be a gonuline member of the board of directors of a bank. The organizers of the A. F. of L. has scabbed repeatedly on the insinstrial union. The A. F. of L. has scabbed on the Western Federation of Misers and on the Industrial Workers of the World. The company union, the so-called International Brotherhood of Woodsmen and Sawmill Workers is even now busy trying to scat the I. W. W. out of existence in Montaua. Is this a fact? If any man doubt this statement let him to to Missoula or to any one of a dozen towns and places in Montana, where the lumber companies compel the hands to take cut cards in the international. Go to Darby, or to St. Regis, or to Heron, or Missoula, or Potomac, or Kailspell, or Somers, or Eureka, or Fortine and simply ask the lumber jack is told to join this scab A. F. of L. bunch or roll his blankets. To the u

I. W. W. In Montana, it will be all right if they all vote for some one few years.

The American Federation of Labor was founded at the instigation of the employing class to down the Knights of Labor, and divide the workers. There are many thousands of houset manly men in the A. F. of L. who simply do not know what they belong to. The leaders and disorganizers of the A. F. of L. fight any attempt to unite the working people into one union. The employers are the friends of the A. F. of L., as against the industrial union. The A. F. of L. is a bosses' union, they carry their masters' flag and are kicked and starved by their masters.

Workers of the World. Unite! Thei. W. W. is the way to unite. A man

Workers of the World, Unite! The I. W. W. is the way to unite. A man is not necessarily a good man simply because he has an I. W. W. card in his pocket, and a man is not necessarily a bad man because he carries an A. F. of L. card. Beware of prejudice and bigotry.

of L card. Beware of prejudice and bigotry.

But we will leave it to the common sense of every sincere member of the A. F. of L. whether it would not be better to have all in one union. You Spokane men who are members of No. 12,222 and 11,624, would it not be better to have the teamsters in the same union with you? You hod-carriers, why not be in the same union with the brick-layers and masons? You are not afraid the poor boss will starve, are you? And will your family be warm and well fed all winter, when the boss is down in Florida or California? The I. W. Is a matter of common sense. The organizers of the A. F. of L. are enemies of the man who works for wages from Mitchell down to Tommy Maioney. By the way, how long is it since Tom did a day's work?

We ask all fall-midded workingment or read the estatement from the Evecu.

We ask all fair-minded workingmen to read the statement from the Executive Committee of the Lumbermen's Unions of the 7. W. W., on page 3 of the week's issue of the Industrial Worker, and then read the article from the A. F. of L. paper, "the Labor World," alongside it. Look into the thing for yourself and then, see which is the Workers' Union—the I. W. W. or the Union (?) of Mr. Taft, Mr. Rooseveit, Mr. Bryan and Mr. Roach.

It is a shame to be personal—especially when we all know that the wold politician is merely another word for honesty and sincerity, but you lumber jacks and river drivers of Industrial Unions Nos. 421, 382, 33, and all over Montana who have walked down the hill in the snow this last winter, for the sake of your union, the I. W. W., should remember "Comrade" Hughes of the Labor World, and "Brother" Roach, when, you think of the "international."

TO OUR SUBSCRIBERS

TO OUR SUBSCRIBERS

The reader of a paper who has paid for his subscription does not like to be continually hounded and annoyed by begging complaints about the money condition of the paper, the need of getting more subscribers, etc. If there is a lively demand for a paper it will seil listelf, and while advertising is a good thing, it is hard to create a demand for a revolutionary paper, if such a demand does not expect the support of any but members of the working class, and only the disconitented ones. We are glad to have the paper read by all classes, but it is intended especially to antagonize the employing class, and we hope they will never speak well of any of us. The Industrial Worker is issued by the Industrial Unions of the I. W. W. at Spokane, Wash. The paper costs us about \$\$\frac{125.00}{2}\$ per week to print and send out. We have no capital and little credit. There are probably enough members of the I. W. W. who take an interest in the paper who would be willing to exert themselves, in order to see that we are not compelled to suspend publication. The Industrial Union at Kalispeli, Montana, has sent in over \$\$\frac{35.00}{2}\$ for subscriptions alone in the last week, and this in spite of the trouble that union is in. There are many much larger towns than Kalispeli who send in no subscriptions at ali. The rates are \$\$1.00 per year or \$\$\frac{50}{2}\$ cents for 1sk months. Canada, \$\$1.50 per year, because the second class rates do not apply to Canada and each paper must have a stamp. This article is written merely to call the attention of the readers of this paper to the fact that we are in need of a larger subscription list, and as soon as we are able to get more of the papers printed, we will be able to reduce the price. In this paper is a subscription blank. If you are interested in the Industrial Worker and approve of the paper, try to see if you can get a few subscription from the politicians and the officers of the separated unions. It would be a disgrace to receive anything eise. This is not th

A MAN'S A MAN FOR A THAT

The employing class paper of Spokane, the "Spokesman-Review," of June 14 has a leading front page article on "Hawali Awakes to Jap Menace." This reads like the accounts of the suppression of free speech in Spokane and like the venomous hisses of the same paper against the Western Federation of Miners. But after all we must give the devit bis due: the Review is on the side of the employers and their tyranny, first, last and all the time. There are other "labor papers" in the city that are friends of the employers while parading under the name of organized labor. Whoever the cap fits, can put it on. This article in the Review tells about an order "forbidding the assembling of crowds," "the raiding of the offices of our Japanese fellow workers paper, the Jilj." "the arrest of fifteen of the leading agitators, strikers," etc. The blessings of freedom have indeed extended to the employers Island possessions: The Japanese have a union which Durham calls the "higher wage association." Good for the Japanese. Then Grandman Durham has a hemorrhage in the way of an editorial. This preciou. editorial says that "the pitot" is probably the work of inbor agitators who have been working among the Japanese as agents of the Higher Wage association," etc. And then, some dope about a "Japanese conspiracy to get control of the sugar industry of the islands." This is encouraging to think that the Japanese workers want to get industrial control. Now, Grandma, here is another conspiracy: the industrial Workers of the World and the French Indi strial Union are trying to get control of not only the sugar industry, but of all other industries as well. The fact that the economic—the industrial workers over their jobs is feared by the employing class is well is nown in just such articles as that in the Review. It is a pity for the employing class in the workers over their jobs is feared by the employing class is own in just such articles as that in the Review. It is a pity for the employing class and on the part of the workers, therefore I The employing class paper of Spokane, the "Spokesman-Review," of June has a leading front page article on "Hawali Awakes to Jan Menace." This

ing clars own as much property. In Hawaii as in America—practically 1 The Sundwich Islands were taken from the natives of that country by 1 and violence. The Japanese workers have as good a "moral" right to the Americans. Has the United States Government a title deed from the Islands? The whole anti-Japanese agitation is a conspiracy of an the Islands? The whole anti-Japanese agitation is a conspiracy of an on the part of the employing class. The stickers we all see, "Fire the have the A. F. of L. label on them. If the enemy succeeds in inciting a between the Japanese and the American workers, will the gatting gunrifics also have the A. F. of L. label on them? And will the comiss of the dered soldiers hear the same label? President Benton of Minmi Universation between the false religion and the true. It requires no pretransition between the false religion and the true. It requires no pretransition between the false religion and the true. It requires no pretransition between the false religion and the true. It requires no pretransition between the false religion and the true. It requires no pretransition between the false religion and the true. It requires no pretransition between the false religion and the true. It requires no pretransition between the false religion and the true. It requires no pretransition between the false religion and the true. The religion which garantees sound morality that shall be proceed to be sound morality. This is rich! Page 12 of the same number of the sound morality. This is rich! Page 12 of the same number of the sound morality. This is rich! Page 12 of the same number of the sound morality. This is rich! Page 12 of the same number of the sound morality. This is rich! Page 12 of the same number of the sound morality. This is rich! There are cally two nations on earth. So the nation of the workers.

We extend the hand of felowship to our stringgling Japanese fellow ers in Hawaii, and assure them that the jails in Hawaii are not most than in America.

One Union, One Label, One Enemy for the I. W. W. Not "Fire the Jap" but "Fire the Boss" is our motto!

THE LAWYERS

THE LAWYERS

There is an lold story that says that the devil once took a walk on to have a look at things. He saw a lawyer killing at snake, and the sail smiled, because it reminded him of Cain killing his hrother, Abel. It is certainly good warrant for the idea that the snake is a brutter on lawyer. Of all the professions, that of the law is the most detestable. Then may be good physicians, sincere preachers—perhaps, and brute good physicians, since good good physicians, since good

DO IT NOW

There are a certain number of parior socialists and revolutionists as well as backwoods philosophers who spend their time and use up their mental ability in everlastingly cussing and discussing theories. They have the same interest in the working class movement, very often, that they might have in some branch of science, or in watching the antics of some queer animal. It is more important with these people that a workingman be a double-jointed, reactionable, pucunatic, scientific sociologist than that he have enough the cast. There is little to be done for a fanatic except to see that he is comtoniable and well cared for, and does not injure himself. But there is too inticated air. We have the revolution all fought out in our heads, but the node who works next to us all lay does not even know what the union is or wise we are after. If higher education in theories is wanted, it would be well to take a college course in sociology, and a course in all it does not seen who work in the social sciences, under the append the rest of our lives in comparing what we have learned with who we don't know. There is, no fear of any working man having too most culcuation—of the right sort. The trouble is we have too little. But from the standpoint of an L. W. W. nam or woman, is it not better to educate your self by actual contact with the working class, and by observing their decisated with classes. It is a contact with the working class, and by observing their decisand victories, and by taking part in them, than by relying on the wise saying of build-headed, bewhiekered politicisms and professors? A worker should peak himself in the rules and constitution of the L. W. W. Vour obligation requires that you become familiar with the methods, aims and objects of your union and you should try to hear all possible objections and arguments against the L. W., but in order to know where you are at, it is necessary for you clearly to understand industrial union teachings and niethods. Trust so leaders? See that every action of the offi

The Industrial Workers of the World is opposed to the divisious of working people, he matter whether those divisions are religious, individually necessary and the people of the state of point out the idiocy one little group of workers in a craft union striking against the quality when the other separated craft unions remain at work for the same employment of the characteristic of the American Federation of Labor misiend the workers preaching harmony between the workers and their enemies, by teaching workers to respect a contract made under compussion and threats, and leaders of the American Separation of Labor are friends of the enem of the working people. The A. F. of L. says "divide into crafts"; the i. W. says: "Unite in one union." We are allways on the workers ide, because we are selfish. We are all wage-workers ourselves in the l. W. W. The dustrial Workers of the World has always done what it could to sasist struggling members of the working class lagainst our common encusy-employers. We will it ea can to any i. W. W. man who scabs on the A. F. of or any other workers. The l. W. W. is now engaged in a strike of the low workers in Flathead County, Montana. The Spokane A. F. of L. papier. "Labor World," jublishes no motice of the li. W. w. strike, but on the of hand publishes the account of the employers' union, the so-called "line". Workers in the world, united The "industrial Worker" has slwsys by glad to print accounts and atrike notices for the A. F. of L. Any union of the space in the "industrial Worker" has slwsys by global print accounts and atrike notices for the A. F. of L. Any union of the the space in the "industrial Worker," free of charge.

The Fellow Workers in New Montana. The Spokane, which is out on strike, or having trouble with the enemy, is welco." The Industrial Workers of the World is opposed to the divisions ling people, so matter whether those divisions are religions, in

The Fellow Workers in New York City have started the publication paper which is for "propaganda and stimulating purposes, to give aid to strong and rebuke to the timid soul." The paper is hould to be a help in organizing of the workers, and should be hobated by all the I. W. W. membridge of the workers, and should be hobated by all the I. W. W. membridge of the workers, and it also contains many interesting items of I. W. news. The paper is called "The Reporter," and is issued at the New Y news. The paper is called "The Reporter," and is issued at the New Y aubscriptions about be addressed to Gust Delg, at the same address. It to be hoped that this paper will be a howling success, and it is certain the Industrial Worker, and the boye in the West, will do all possible,

H. L. ROBINSON,
Executive Board and Trustees.

JAMES E. ROACH.

General Organizer A. F. of L. THE MONTANA STRIKE.

To the Lumber Workers of Western Montana.

in the spring of 1907.

No crims was committed by the I. W. W. men (who represented over 90 per cent of the workers in the lumber industry) by going on strike to maintain their wage scale, and thus maintain a higher standard of living for the workers. No intelligent body of men could do anything else than try to keep what they held wrested from the employers a year before, especially in view of the fact that lumber had not gone down in price, but to the contrary, had raised, as had also sverything else that the wage-worker must have to keep life in his body. It was impossible for the lumber companies to whip us into line alone, and they realized this, when they brought into existence the capitalist ally—the international.

"Divide and Conguer."

"Divide and Conquer."

Real Residence of the American Federation of Labor and Residence of Lorizop: T. P. Wilburn, S. G. Chafby and Allen McMillan of Heron, a district common was organized with a view to second design a complete organization of our industry and the following resolutions were adopted:

Be if Resolved, That all local unlons of the International Brotherhood of Woodsmen and Sawa. We-kers in the State of Montana organize and starict connell, for the purpose of facus an organization. All affiliated local shall possess love the international is shall pay 19 cents per member per month to defast the expense and salery of organizer. Carried unanimously.

Be if Resolved, That the several locale do all in their power to elect legally to office of the international Brotherhood. RESIDENT members of Montana, such being the lawful was to bring the national headquarters to this district Carried unanimously.

Be if Resolved, That all local unions of the Renderlood made application to affiliate with National State Federation of affiliate with National Residence and the sevence of the International Brotherhood and the sevence of the International Brotherhood of the lawful the sevence of the International Brotherhood of the Site Carried unanimously.

The latest msthod on the part of the employers, to defect the workers, is to plt one set of environments of the sample as the ployers, to defect the workers, is to plt one set of environments of the sample as the ployers, to defect the workers, is to plt one set of environments to the sample of the employers, to defect the workers, is to plt one set of environments of the sample of the employers, to defect the workers, is to plt one set of environments to the sample of the employers, to defect the workers, is to plt one set the everters, and the sample of the employers and the facing the national dead of the union, who are engineering the each office of the profits, and that the international set of the sample of the sample of the employers; to the sample of the employers and the facing the

all of it must come from labor.

The wage-earner wante wages, more and more wages, to meet the ever-increasing prices of commodities, which the trusts (of which the owners of the Big Blackfoot Lumber Company are leading lights) exact from the workers.

These two interests are opposed to each other, and who ever heard of one army loving the opposing army, when the interests of one were against the other?

One of the main strukholders in the strandard

One of the main atockholders in the Standard Oil Company recently gave evidence in court to the effect that the Standard Oil Company had realized 1,000 per cent profit in one atate in the last year. This may not seem of any importance to the average lumber worker, but it is significant when you stop to realize that the great majority of lumbar workers in Weat-

ern Montana are actually working for the Standard Oil Company, and that this company, under the nams of the Big Blackfoot Milling Company are desirous of, and in fact are, driving men from pillar to post, because they refuse to join their pst Scab Union—THE INTERNATIONAL.

Let us reason with ourselves, and ask: Why all this love for a labor union by capitalists? Is it reelly because the masters love the work-rading class that they are so anxious to see us organize?. Is not the history of the labor movement of America one stream of crimes comment of America one stream of crimes comment of America one stream of crimes comment of America one of the standard of living. It is up to you to either be a man, standing the standard of living. It is up to you to either be a man, standing street with the proof of honest men were provided in the spring of 1908 knows that they are so anxious to see us organize?. Is not the history of the labor movement of America one stream of crimes comment of America one stream of crimes comment of America one stream of crimes comment of America one of the standard of living.

It is up to you to either be a man, standing the standard of living.

It is up to you to either be a man, standing of a union than without one.

Every iumber worker who was in Western Montana in the spring of 1908 knows that they for honest men were provided to the scab union who would not have fellow Workers:

Let us reason with ourselves, and ask: Why all this love for a labor union by capitalists? Is the scab union who would not have been dupled by a provided and lotation, the deportations of thousands of man, the Homestead slaughter, Hazleton, Pa., where provided and lotations and the universal provided and lotations and the univer MSER WORKERS BUSY.

(Concluded from last week)

(By Joseph J. Ditor.)

The committee, if must be remembered, was under instruction how to call a strike, in fact the convention itself delared galants at strike the masters and try to convince them that they could still make profit is usual and give the slaves more wages]. Not Levis became the santweer of a resolution presented to the convention they could still make profit is usual and give the slaves more wages and the propertry of the mined owners, they have the right to operate and conduct the mines are the propertry of the mined owners, they have the right to operate and conduct the mines are the propertry of the mined owners, they have the right to operate and conduct the mines are the propertry of the mined owners, they have the right to operate and conduct the mines are the propertry of the mined owners, they have the right to operate and conduct the mines are the propertry of the mined owners, they have the right to operate and conduct the mines are the propertry of the mined owners, they have the right to special coal at what ever price they are fit. The United Mine Worker was propered to the world to the world was an one concern itself in anything except for its right to proper the property of the mined owners, they have the right to operate and conduct the mines are the propertry of the mined owners, they have the right to operate and conduct the mines are the propertry of the mined owners, they have the right to operate and conduct the mines are the propertry of the mined owners, they have the right to operate and conduct the mines are the right to operate and conduct the mines are the right to operate and conduct the mines are the right to operate and conduct the mines are the right to operate and conduct the mines are the right to operate and conduct the mines are the right to operate and conduct the mines are the right to prove the properties to be incomediated to the conduct

—"like master like slave."

Mine workers! during all this controversy there has been but one group of men, members of your class, suffering the same miseries that you suffer that has had the courage to speak out in the open and tell you, at all seasons that you were being led to a sure defeat and betrayal. That group is organized in the industrial Workers of the World.

The labor misleaders lured you in to the

tem" was the cry, "we will waive all the other demands."

So you see Mr. Mine worker, you have, as a matter of fact, not gained but lost. The signing of the contract on the old conditions with the pyears, but will also serve to prevent you from the pyears, but will also serve to prevent you from the result in the effect that "if it was good enough to be accepted and signed by Mr. Mitchell, in the last six years, it should be good enough to be accepted and signed by Mr. Mitchell, in the last six years, it should be good enough to be accepted and signed by Mr. Mitchell, in the last six years, it should be good enough to be accepted and signed by Mr. Mitchell, in the last six years, it should be good enough to be accepted and signed by Mr. Mitchell, in the last six years, it should be good enough to be accepted and signed by Mr. Mitchell, in the last six years, it should be good enough to be accepted and signed by Mr. Mitchell, in the last six years, it should be good enough to be accepted and signed by Mr. Mitchell, in the last six years, it should be good enough to be accepted and signed by Mr. Mitchell, in the last six years, it should be good enough to be accepted and signed by Mr. Mitchell, in the last six years, it should be good enough to be accepted and signed by Mr. Mitchell, in the last six years, it should be good enough to be accepted and signed by Mr. Lewis. Is the same, so it is clear that six anything has been done, an argument has been forged against you.

A. F, of L. Leaders are Yellew Scabs.

How well the operators like the situation and the dirty work of the officers, including Mr. Lewis, is proven by the fact that the officers of the Baers as a recognition of structure of the last of the of t

land atates on an organizing iour for the National Industrial Union of Textile Workers, I. W. W. He had an excellent meeting in West Hoboken, in Italian, and is believed.
